

Recommended flight details

You are responsible for organising your own flights to your country of destination. You will be advised separately of the time and date of a recommended flight that will get you there in time to join your expedition.

We recognise that when you come to book your flight our recommended option may not be the cheapest flight. There are other airlines and other flight routings which may enable you to travel for a lower airfare. Please feel free to explore all of your options and decide what is most appropriate for you.

If you do decide to arrange an alternative flight then please be aware that there may be additional restrictions, lower flexibility and hidden costs with cheaper flights. For example some airlines have a fixed fee for changing a return flight date whilst others may also charge you the difference of the new fare.

When booking your flight it is essential that you arrive before the date and time of our recommended flight's arrival so as to be able to meet our in country staff at the airport.

Insurance

Please note that your Raleigh insurance covers you from the date of our recommended flight to the day you are signed off the expedition. If you choose to fly out early to your country of destination and/or to travel on afterwards you are responsible for organising your own insurance.

Borneo 10 week expedition, October – December 2009

Flight No: Iberia Airlines IB 3176

Depart: Madrid @ 13:45

Arrive: London Heathrow, Terminal 3 @ 15:05

This flight is currently quoted at £515. There are other carriers, like Continental Airlines, Air France, Delta Airlines and Martinair that quote similar prices. As all these other carriers travel via the US, you need to make sure you comply with the new Visa Waiver Scheme regulations when travelling through the US.

For those doing the 7 and 4 week expedition, please book a flight with the same details but on the appropriate dates.
